

--23. (New) The composition according to claim 22, wherein the ratio of monomers x, y, and z is 0.6:0.25:0.15.--

REMARKS

Claim 3 has been canceled, without prejudice or disclaimer, to place this application in condition for allowance. However, Applicants specifically reserve the right to file a continuing application containing claim 3.

Newly added claim 22 conforms to the draft claim 22 previously submitted to the Examiner and indicated by the Examiner in an Interview Summary record, paper number 21, to overcome the 35 U.S.C. §112 rejection pending in the case. Claim 6 and new claim 23 are dependent upon claim 22 and, therefore, should be allowable as well. In view of the above, Applicants respectfully request that this application be passed to allowance as soon as possible.

Any fee due with this paper, not fully covered by an enclosed check, may be charged on Deposit Account 08-1634.

Respectfully submitted,

Michael I. Markowitz
